

Kwik-Serv

What is Kwik-Serv?

Kwik-Serv is a Loan Servicing System that enables lenders to manage the complete lending cycle from origination through maturity. It provides powerful tools to simplify the origination process so that borrowers get the right loan every time. Kwik-Serv streamlines loan servicing so that customers are best served. And it gives a complete and accurate view of a portfolio so that lenders can make informed lending decisions. In addition, it can Print Statements, Checks, Coupons, Notices, and Amortizations.

Key Benefits

- Standardize loan management process
- Mitigate risk through credit evaluations
- Default loan terms and conditions based on program rules
- Perform funds checking and reservation
- Automate loan approvals and funding
- Manage multiple disbursements
- Streamline loan information with a centralized dashboard
- Simplify loan servicing by monitoring statuses and agent short-cuts
- Reduce delinquency rates with collections strategies
- Automate loan accounting and reporting
- Save money by not having to purchase servers or other software to support use.
- Faster implementation. Customers can deploy within hours rather than weeks
- Focus budgets on competitive advantage rather than infrastructure (Low Total Cost of Ownership)
- Monthly obligation rather than upfront capital cost
- Flexibility and scalability
- Reliability
- Faster new feature releases
- Embodiment of recognized best practices
